

Agenda: Pre-investor conference meeting and workshop

2nd of February 2011

Venue: NH Vienna Airport, Einfahrtstrasse 1- 3. A - 1300 Wien/Flughafen, Vienna (Austria)

Preparations: Please bring material and information about your projects (short executive summaries) for the workshop. It would also be useful to look through and if possible bring the feedback given by TechTown guys to our projects in Detroit. This will be used to start the preparations for the investor conference. If somebody will prepare the full presentation we could listen to these and discuss them in Vienna as well.
